

Start Your Research With

IEEE COMPUTER SOCIETY

DIGITAL LIBRARY

www.computer.org/csdl

1

THE SEARCH BAR

- Many search and filtering options.
- Topics, authors, year published, publications, affiliations, and more.

BASIC vs ADVANCED SEARCH

2

- Go simple or get complex.
- Customize your search with single topics, combining and/or excluding topics, or narrowing results by publication type. Combinations are endless through Basic and Advanced Search.
- View How to use Basic Search:
<https://www.computer.org/digital-library/librarian-resources#basic>
- View How to use Advanced Search:
<https://www.computer.org/digital-library/librarian-resources#advanced>

3

MY SUBSCRIPTIONS

- Not sure what to look for? Easily browse through the publications under My Subscriptions.
- Review the most recent published articles, and find new featured articles every month.

4

28 PEER-REVIEWED JOURNALS

Find cutting-edge research and highly technical insights on advanced computing topics like digital twins, AI, real-time object detection, predictive models, and more. Papers go through IEEE's rigorous peer review process to ensure quality content.

www.computer.org/csdl/journals

5

16 PEER-REVIEWED MAGAZINES

Browse expert-takes, surveys, analysis, best practices, ethics considerations, and more hot topics pertaining to computing throughout our magazines; written for and by computing professionals.

www.computer.org/csdl/magazines

6

800,000+ CONFERENCE PROCEEDINGS

Discover even more cutting-edge research as tutorials, posters, presentations, and workshops from IEEE Computer Society's distinguished conferences. With shorter peer-review timelines, you can often find the hottest new discoveries.

www.computer.org/csdl/proceedings

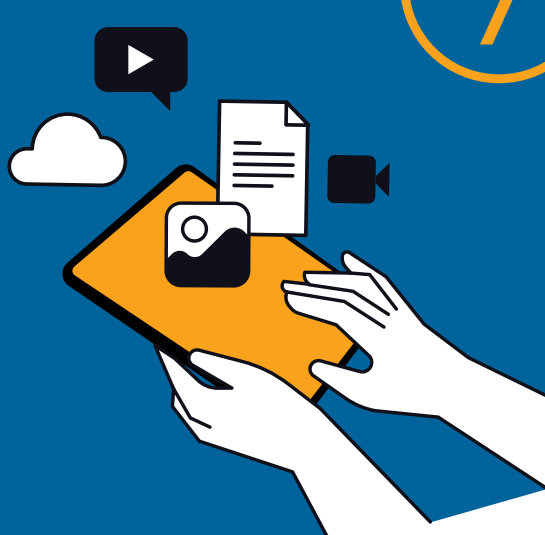

7

VIDEO LIBRARY

Uncover companion videos to papers, keynote presentations, panel discussions, and webinars from reputable speakers in tech.

www.computer.org/csdl/video-library

8

CITE YOUR SOURCES

For your convenience, all papers in the library allow you to generate a citation with a click of a button!

9

CALLS FOR PAPERS

Ready to publish your research? Pick a publication or conference and visit their Write for Us section. Find special calls for papers across all forms on our website:
